AQAR 2022-23

INSTITUTIONAL DISTINCTIVENESS

Students are exposed to a **greater number of Skill Development Programs**. Students are trained to become high quality professionals. Students are improving their self-confidence to face interviews, group discussions and debates.

Students are introduced to new concepts and they develop academic and professional research skills by doing Mini projects, participating in various design related competitions etc.,

Students-Organized Symposiums, Conferences/Techno-cultural Fests, Club activities and getting experiences to inculcate leadership and organizational skills.

Entrepreneurship Development Club, Innovation Cell, IEDC, Exhibitions and Start-ups in the college are platforms to ignite the innovative skills of students. Through innovation, students not only exhibit their creative ideas, but also learn to further improve their innovative skills. Hundreds of innovative ideas are evolved through the Innovation Cell.

In the Smart India Hackathon 2022 conducted by AICTE, one team from the college was shortlisted based on the merit of their ideas and bagged the first prize for developing a Bot for answering the queries related to AICTE in all regional Languages of India.

Students from various departments participated in the design competitions conducted by society of automotive engineers and secured top positions.

Motivated final year students by giving awards for their academic and research achievements during the Riddhi event.
